

Country	Project name (Blocks...)	Status (Operator or Investor)	Operator's full name	Period of operatorship	Main achievements
Oman	Block 36	Emerald was part of the Operator APEX	APEX	2012 to 2016	1000 km Seismic Reprocessing, Various G& studies, Gravi / Magnetic& Surface geochemical surveys. Mapped 6 prospects and identified a regional Tight Oil Play ...
		Co - Operator	DNO	2016 to 2019	1100 km Seismic, drilling of 1 deep exploration well
		Co - Operator	EOG Resources	2020 to 2023	Drilling of 2 deep "pilot" wells, with a 1-mile m lateral leg, followed by fracking, to explore and characterize the unconventional Rhuddanian (Silurian) play
Egypt	Block H, West Gharib	Emerald was part of the Operator Madison	Madison PetroGas	2010 to 2016	Discovery of 2 oil fields: Meseda & Raboul, then proceeded with full field development by drilled over 15 wells. Peak production reached 7,500 bbls/day
Cameroon	West Bakassi (in swamp delta)	Emerald was part of the Operator Madison	Madison PetroGas	2009 to 2012	Various G& studies, 800 km Seismic, 1 deep exploration well resulted in a 500 BCF gas field.
Canada	Saskatchewan, Manitoba	Operator	Emerald Petroleum	2010 to 2017	Various G& studies, Exploring & Developing Mississippian carbonate plays, drilling over 20 wells. Initial Production (IP) was varying from 100 to 250 bbls/day.
Belize	FCRL Belize	Co - Operator	FCRL & Emerald	2021 to 2023	Various G&G studies, 600 km Seismic 2D, 1 oil discovery, and plan to re-enter 2 legacy wells
Nigeria	OML 60, 61, 62, 63; 144, 24	Assisting Co - Operator	Foreign Technical partner with various oil companies	2023 to Present	Emerald acts as technical partner with various indigenous oil companies. Assist in financing; Carry out technical work, drilling operations, re-entries, EOR...
